

High School Supplies & Technology Guidelines

Preparing for the School Day

High school students should come to school each day with the supplies they need for their classes. Lockers will be assigned during the first week of school. Students are responsible for purchasing a combination lock for their assigned locker.

Required Academic Supplies

- One A4 notebook of at least 100 pages for each subject
- One packet of A4 lined loose-leaf paper
- Pencils and an eraser
- Pencil sharpener
- Blue, black, and red pens
- Large glue stick
- Post-it notes
- Ruler
- Highlighters
- Colored pencils (24 colors)
- Markers
- Compass and protractor
- Scientific calculator: Casio fx-570ES or Casio fx-991ES

Teachers may introduce additional requirements based on the needs of their courses. These may be communicated during the first week of school. Students enrolled in elective courses should also be prepared to purchase or bring any specific materials or equipment required for those classes.

Personal Belongings

Students are expected to bring their school supplies with them each day and are responsible for taking care of their personal belongings. **St. Fatima International School cannot assume responsibility for items that are lost or misplaced on school premises.**

Student Devices & Technology

Students should bring their devices to Orientation Days or during the first week of school. This will allow the IT team to assist with device setup, updates, and access to school learning platforms when necessary.

Web Browser Compatibility

Students should use an up-to-date browser to ensure that the school's digital learning platforms and courseware function properly.

Browser	Minimum Version
Google Chrome	Version 143 or later
Microsoft Edge	Version 143 or later
Apple Safari	Version 26.3 or later

Safari Settings

On some devices, Safari's privacy settings may interfere with resources provided through digital learning platforms such as McGraw Hill.

If a courseware resource does not load correctly, students may need to review the Prevent cross-site tracking setting:

- Open Safari.
- Select Safari > Settings.

- Open the Privacy section.
 - Review the Prevent cross-site tracking setting.
 - If required for the platform, temporarily disable the setting and try accessing the resource again.
- Students who continue to experience difficulties should contact the school IT team for assistance.

Device Compatibility

For a smooth experience with online learning platforms, students' devices should support or have the following enabled:

- JavaScript
- Browser cookies
- MP3/audio playback
- Pop-up windows when required by specific platforms
- Current browser and operating-system updates

Please note: Adobe Flash is no longer supported by current browsers and is not required.

Supported Operating Systems

Students should use one of the following supported operating systems:

- Windows: Windows 11 (23H2, 24H2, or 25H2)
- Mac: macOS 15, 26, or 27
- iPad: iPadOS 18.7, 26, or 27

Before the start of the school year, families are encouraged to check that devices are updated and ready to access the school's digital learning platforms.

When using a device for PSAT10 Important Requirements:

- The device should have **at least 3 hours of battery life** for SAT Suite assessments.
- Students should have **Bluebook installed and tested before test day**.
- The device needs to connect to the school's Wi-Fi.
- An **external mouse is allowed**.
- An external keyboard can be used with tablets, but **not with laptops**.
- Students should bring a **charger/power bank**, since an outlet is not guaranteed.
- The school decides whether students use **school-managed devices or personal devices** when the PSAT is administered at their own school.
